CITY MANAGER ABOUT-FACES

Cooper Reduces Gasco Rates, Increases Water Rates

City Water Department Is Public Utility

SAN FRANCISCO,—An annual \$450,000 rate reduction for San Diego Gas & Electric Co. consumers—largest slash ever made in the utility's schedule—was announced by the state railroad commission.

Broken down, according to Walter Cooper, San Diego city manager, \$250,000 of the cut is to be applied on gas rates after March 1, and \$200,000 on electric rates after March 15.

It is remarkable that a privately owned utility is able to slash rates every year. Only three months ago a rate slash of \$200,000 was announced for the Gasco which took effect Nov. 1. Why does a city owned public utility have to increase its rates at the same time? Evidently, management has a whole lot to do with it. As rate expert for the city against the GASCO, Walter Cooper, advocated rate cuts before the state railroad commission, as city manager, Cooper proposes to raise the agricultural consumers water rate from 8c to 10c. Why this about-face?

The Gasco carries many "poor customers" at a loss for a long period of time in regions where population is sparsely settled. But it is good business because it encourages development and after years of deficit for a particular region, the very fact of service at a loss becomes an asset, because it encourages development until the Gasco is able to recoup its losses and show a profit.

The same applies to city water consumers in agricultural areas. By enhancing the value of such sparse settlements through agricultural and horticultural pursuits, it prospers and attracts more population the acreage is subdivided and the higher water rate for home consumption automatically supersedes the agricultural rate. In the long run the city makes money for its water department and gave a service, too, as the Gasco is doing all the time.

Consumers Should Organize and Protest

The city manager recommended to the council that "the use of water for irrigation be restricted to certain hours and that this conditional use may also be accompanied by a rate change." He did not put the 10c charge raise in writing but suggested it orally.

Charter Provisions Ignored

The city charter provides that "until such time as the Water Dept. is self-sustaining the Council must provide an adequate sum in the annual appropriation ordinance for the proper maintenance of the Department."

The city manager reports that in 1937-38 already the Department became self-sustaining: "It is my judgment that the Water Department in the fiscal year 1937-1938 had revenues sufficient to pay all direct expense for maintenance and operation, taxes as charged, a pro-rata of general city salaries and expense, \$280,765.78 for accruing depreciation, interest on all outstanding water bonds and had \$216,063.98 remaining to apply on the payment of bonded or contract debt."

Now, why in heaven (on earth) does the manager propose to up the rate to agricultural consumers when the water department shows a surplus? Why does he not suggest a cut in the rates generally as he is cutting the GASCO? Does it make any difference whose ox he is goring? When its the Gasco, slash it, when its the political pie, increase it!

The water consumers have been paying for political pie out of water revenues. That is what produced the city jail with its ball room.

This water surplus gives the politicians their gravy to spend as they see fit. It makes all the difference whether revenue is raised by a general tax or by water revenue. A general tax applies equally to all land, improved and not improved. Water consumers, though, are penalized because they are productive and when they pay more in rates than their just due, the land speculators of unimproved areas or lots get the benefit. That is why Cooper wants to soak and curtail the agricultural consumers. He'd rather ruin crops and level orchards.

Protect Consumers Through Charter Amendment

The people who pay the bills should arise and defend themselves by demanding an amendment to Sec. 53 of the charter, embodying the features of a self-supporting public utility in the Water Department so that no surplus could be filched by pork barrel politicians for their favorite pies.

SHALL CONGRESS REMAIN A REICHSTAG?

Because patriotic members of both Houses resented the supplanting of Congress by the Reichstag and refused to join the totalitarian applause of January 6, the Lady Fuehrer of the Land has reprimanded them, in direful mood, for their lack of fealty to the new order that has been ordained for us . . .

It is the duty of the people to compel Congress to cease its servility and disloyalty and perform with steadfastness and aptitude the functions for which George Washington (the man who could have been, but declined to be, a Fuehrer) and those who, with him, brought it into being as the National Legislature of the American people, not a Hitlerized Reichstag.

U. S. Jails Christian for His Religion

Indefinite Term Looms for Pastor Refusing To Register for Draft

WINONA, Minn.,—Rev. Winston Wilson, 28, of Austin, Minn., who refused to register under the selective service act, was sentenced in federal court to serve a year and a day in a federal prison.

Wilson brushed aside an offer of reconsideration if he decides to register, saying, "As a Christian I can take no part in war or preparation for war."

Federal Dist. Judge M. M. Joyce explained Wilson would be expected to register on completion of his prison term. If he continues to refuse, the judge said, his prison term may be extended indefinitely as long as the selective service law continues in force.

"War and dictatorship abroad cannot be overcome by more war and more dictatorship at home, toward which conscription is a part," the minister's statement added. "Evil cannot be overcome by evil but only by God."

Labor Racket

Firemen Want More Pay Compare Their Income With Yours CITY COUNCIL GRANTS SIX DAY WEEK ON FULL PAY

Voters are being asked by city firemen to sign petitions for a charter amendment to place the fire department of San Diego on a six day week schedule, after the city council has ordered the City Manager to co-operate with the Chief of the Fire Department to prepare such new schedule without loss of pay to the firemen.

It is quite evident that the firemen do not appreciate when they are well off. They received the six-day week, they got a 14% increase in wages per day of work when the number of days was reduced, still they want more and are asking for another increase of 10 to 15%. Here is what they are getting:

Firemen—Probation	\$148.00 per month
4th class	156.00
3rd class	163.00
2nd class	171.00
1st class	178.00 and \$185.00

Engineer \$194.00; Lieutenant \$201.00;
Captain \$216.00; Battalion Chiefs \$247.00;
Assistant Chief \$309.00; Chief \$375.00.

After 20 years service they retire on half pay and most of them retire in the higher rates; then they can go out and get another job on top of it.

Up to this year the firemen were wise enough to stand by their rights and not reach out farther than they are entitled to. In this manner they made friends everywhere. For this reason I insisted that the city council give them the six day week immediately.

But, now, the firemen are becoming the cats' paw of Labor agitators. They are attempting to wreck the intent of the city charter by amending themselves away from the control of the city manager, the civil service commission and the city council. They are asking for a good licking by the voters and they are going to get it.

If they are NOT SATISFIED with the six days week the voters might repeal it at the general election if it comes to that.

Hitler Offers to Export 450,000 Jews

Since the Jewish masters of American commerce have decreed a world wide boycott of German goods, Hitler hit upon the idea of sending more Jews to the U. S. to boss us and make us like it. He is willing to exchange 450,000 Jews at \$245 in Jewish gold, each. That is the only German export the Jews are willing to buy with gold inspite of the boycott.

To America it means that 450,000 American salesmen will lose their jobs since the lords of industry have promised to take care of the refujews. Hitler reasons that if Jews are a blessing he is willing to shower 500 blessings on us with each trainload as long as we are willing to put our own people out of jobs to make room for the Jews. Evidently its the only thing that will awaken America to the realization why Jews are not wanted in Europe.

50 Typhoid Carriers for 50 Destroyers

Polish Jews are known typhoid carriers. Who says that Hitler does not pay back?

If every trainload of 500 Jews contains 10 typhoid carriers, not easily detected unless quarantined for a long period of time under observation, Hitler will pay back for every destroyer we gave England and for every bomber. Jews gravitate towards congested districts and that is where they can spread their disease most easily. Just imagine a typhoid epidemic in a district inhabited by factory workers. It can tie up the works much better than a general strike or so-called Fifth Columnists.

"450,000 New Worries from Germany"

Oi oi oi, Gewalt—the San Diego Union is

"FEED MY LITTLE ONES"

By Dr. Brown Landone

Unless we keep love awake in our hearts, nothing we attain by our consecrated help in this war will be of any value whatever!

Millions of babies will die in conquered Continental Europe this winter, and millions more will become defective for life, unless we send food to them!

Those who oppose our sending food, make the excuse that Germany will seize part of the food.

But the Red Cross tells us that ALL food sent to the suffering Poles is distributed to them, and that Germany helps rather than hinders the feeding of the Poles.

The Polish Relief Commission makes similar report.

Ex-president Hoover insists that—in 1918-19 when Germans themselves were starving—the Germans did NOT take even an ounce of the food we sent to the Belgians.

de Aryan Comments

KGB

Daniel Webster, the American

Radio Talk, Wednesday, 7:15 pm, KGB, Jan. 29, 1941

By GENEVIEVE FEELY de ARYAN

I believe that America is a nation that can stand alone against the world, if needs be, as long as we mind our business as Americans first. I shall quote what Daniel Webster said:

"I shall know but one country. The ends I aim at, shall be, my Country's, my God's, and truth's. I was born an American; I will live an American; I shall die an American and I intend to perform the duties incumbent upon me in that character to the end of my career. I mean to do this with absolute disregard of personal consequences."

What America needs today is more Daniel Websters who dare to stand alone. Two weeks ago I read to you from an editorial written by William Griffin, editor and publisher of the New York ENQUIRER. Mr. de Aryan and myself received so much favorable comment by word of mouth, letters and phone calls that I have decided to read tonight another editorial which appeared in the New York ENQUIRER.

"The day has come when those who are not for America must be uncompromisingly branded as against her. . . America is being warred upon ruthlessly from within. . . America is being subjected to a domestic aggression of far greater strength and destructiveness than any foreign aggression could ever accomplish.

"Who is the foreign aggressor that can impose indemnities of billions and billions upon the already stricken people of this land, in order to finance a quixotic scheme of world conquest and domination?"

"Who is the foreign aggressor that can drag the youth of America from their homes and militarize them, in preparation for dispatching them to the ends of the earth and making them victims of death in its most horrible forms, to enable him to carry out the self-same scheme of world conquest and domination?"

"Who is the foreign aggressor that wipes his nose in the Declaration of Independence, the Constitution of the U. S. and Washington's Farewell Address?"

(Continued on page Six)

warning against "the Greeks, even when bringing gifts". Now, is that not nasty, when the Greeks are fighting for the British!? And to top it all the Union does not want any more Jews coming over here to bless America, by singing the Jewish song in place of the Star Spangled banner. In an editorial Wednesday morning the Union wrote: "We have enough trouble of our own without importing 450,000 new worries from Germany". How hard hearted! Oi oi oi, Gewalt!

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931, at the postoffice of San Diego, California, under the Act of March 3, 1879.

"FEED MY LITTLE ONES"

(Continued from page One)

The 56 Quaker Executives, engaged in relief work in Europe for years, insist that **ALL** food sent for the starving people **HAS BEEN** and **IS BEING** distributed to them.

They are people we can believe!

In contrast, those who oppose feeding the starving children, have **never** engaged in European relief, and **never** seen mass starvation!

Have **YOU** seen **MASS STARVATION**?

Dr. Hamilton and Jane Adams saw it in Europe in 1919. Dr. Hamilton writes in effect: We saw . . . slow destruction of human beings . . . children with multiple bone tuberculosis . . . masses of tuberculous glands . . . 'wolf' tuberculosis of the lungs, which eats into the skin . . . terrible ulcers . . . thousands of boys, lying naked out doors . . . arms and legs as thin as sticks . . . three year old children never able to walk . . . boys of 13 who look like old men, shrunken and wizened!

Certainly, food sent would be distributed only by American experts, and every pound accounted for. In the last war, Mr. Hoover and the government of France double-checked all food distributed in Belgium, and reported that **not one pound** was seized by Germany in four years.

The excuse of those who now wish to prevent us from feeding starving people in Europe, are ridiculous as well as heartless. There is proof, that food sent to starving millions will be given to them!

So, if we become so obsessed by fanatical hate of Hitler, that we let millions starve, we will destroy the very Christian values for which democracies are fighting. We shall become despicable as a people. Our spirituality will be lost, and then—no matter what the outcome of the war—there will be no nation left, to save the world from continuing hates and conflicts.

We must **NOT** submit to the Churchill refusal; it is **NOT** the wish of the English **PEOPLE** themselves!

Not only the English people, but the head of the Episcopal Church—the state church of England—and the head of the English Catholic Church, publicly oppose Churchill's decision.

PRESERVING PLUTOCRACY

No military necessity, requires anyone to starve babies! It seems that there are still some men in the Churchill government who are too much concerned with profit. This is indicated by its method of food restriction in England, **NOT** by the amount available or by the needs of the English people, but by the price. That is, when a food becomes scarcer, a less amount is allowed for a shilling.

Those who have plenty of shillings, can buy; the hungry, who have no shillings, go without.

Whether it is the ennobled people of England—suffering under terrible destruction—who need food; or whether it is starving children of Continental Europe—the Churchill method in England is heartless, and the Churchill refusal to let us send food to starving babies, is damnable!

I see seven proven facts.

I see the tortured people of England, living in a chaos of destruction and shrieking hell, with limited food on the basis of prices which they can not pay. (Churchill is part Jew.—Ed.)

I see millions of babies and mothers of conquered Continental Europe, approach mass starvation! If you saw it in one country in 1919, think of the horror of ten countries this winter!

I see our own country, and its millions of tons of food, we will not use!

I see millions of us longing to find some way of feeding the starving babies of Europe!

I see the proven results of semi-starvation and mass-starvation: Children with night blindness, great ulcers eating into their eyes, bloated abdomens, spindling legs, bones so soft they cannot walk, tuberculosis, depleted brain structure from which they will never recover!

Millions of babies actually dying in their mothers' arms.

I see Churchill's peculiar restriction of food in England, and heartless refusal to allow us to feed the starving children of the Continental Europe.

I see few Americans—a half-million-dollar-a-year actress of Hollywood, and a few educators and bishops and politicians—hating Hitler so much that they **prefer** to let millions of babies die in their mothers' arms, rather than help us

secure a reversal of the Churchill decision!

We **OURSELVES**, are in the wavering balance! Shall America sell its soul to hate, or maintain its idealism—and fulfill in part at least, the Christ command to "feed my little ones"?

I care not if I am castigated for this appeal. I have faith in the heart of America—that every person who reads this appeal will spread it to others. I care not even if I am arrested for advocating a policy, contrary to that of several influential people. **Even if that happens, others will carry on!**

WHAT HAPPENS TO US?

I know some military men fear that help to Europe's starving children, might release a little local food to totalitarian industrial workers.

But **FOR US**, there is something more important—yes, **FOR US**, it is even more vital than feeding orphans of starvation!

It is what we shall do to ourselves!

Have you ever looked into the eyes of a mother, whose babe was slowly starving in her arms?

If we harden our hearts so that we can calmly look on while millions of children near mass starvation, we shall so sear our souls by lack of love and increase of hate, that when this war ends, we shall be so tainted by hate in this country, that ultimately class will fight class, unto our own nation's destruction. **We cannot build a future of helpfulness for ourselves or the world, out of increasingly increasing hate!**

The two excuses of those who insist that we must let millions of babies starve, are (1) their hate of Hitler, and (2) their fear that a tiny part of the food might help Hitler a little.

This is their attitude: "We know there are 1000 starving babies in the next town; but there is also a lion there, and we hate that lion. So to prevent that lion from getting even half a pig's knuckle of the food we might send to save the children, we **PREFER** to let the 1000 children starve to death!"

WRITE IN YOUR PROTEST

(Here follows Dr. Landone's suggestion of every one sending out **TODAY** 7 postal cards, as follows: Mr. Herbert Hoover, Palo Alto, California; your Congressman, House Office Bldg., Washington, D. C., your two Senators, Senate Office Bldg., Washington, D. C.

In your statement to Mr. Hoover say: I am one of tens of thousands who **WILL** support any movement to secure reversal of the Churchill decision, so that we can retain our divine right to follow the longing of our hearts and the command of the Christ—to "feed my little ones!"

Tell your Congressman and your Senators what you have written Mr. Hoover (Dr. Landone adding quasi-humorously, "remember—find out who they are, and write them!—even if it takes a little walking around or a few cents of gas). **N B: At TOP** of each of these postal cards, write the following: "Have you ever looked into the eyes of a mother with a baby in her arms, slowly dying of starvation?"

Next: Dr. Landone suggests: Write to a church minister in your community; and ask him to preach on the text,—"Feed My Little Ones".

Next write a card or letter to a friend and **QUOTE** from this Message.

Next send a postal to: **THE LANDONE FOUNDATION, ORLANDO, Fla.**, saying: "I consecrate myself to maintaining the soul of America, and to spreading your message,—Feed My Little **ONES**".

Sign your name and address clearly.

(Continues Dr. Landone) **ONLY 7 CENTS** for the above, my friend! Tens of thousands shall rise with you in consecrated power, and the starving children shall be fed!

"Inasmuch as ye have done it unto the least of these, ye have done it unto me."

You would not refuse the Christ, himself,—would you?

We are hoping for a new age on earth after this war; but if we watch mass starvation of millions of children, without doing anything about it, I doubt if our nation will ever recover from the searing effect upon our souls!

It may affect all civilization for 200 years or more. Several nations of Europe have already hated each other for 1000 years; And now, **IF WE strangle our love of helping others in suffering need, and augment our hate, what hope is there for the future?**

What shall it profit a nation, if it sells its soul to hate?

(20 copies of this appeal, unabridged, available for 12 cents in stamps; address: The Landone Foundation, Orlando, Fla.)

THE 1940 CONSCRIPTION

By Marie Harlowe

To conscript men in peacetime is a form of totalitarianism; in that the present Conscription Bill abrogates the exercise of religious freedom, it out-hitlerizes Hitler's totalitarian methods,—we are to fight Hitler by creating our own Hitlerism!

The first point to be considered is why we have Conscription—we will never understand what it is, until we know why it was set in motion.

A bad government must do something to cover up its deficiencies without competition or hindrance to private industry. Attention must be diverted from domestic problems, and a war psychosis (scare) is trumped-up. Norman Thomas, Socialist Candidate for President has said:

"The real reasons for conscription you are not told; there are powerful groups who will profit by it. For investment bankers, oil speculators, and other economic imperialists, it is the instrument for collecting their profits abroad.

"For army officers it is the hope of longer and more numerous careers.

"For reactionary employers in essential industries, it is the ideal weapon to deal with young labor 'agitators' to whom they can deny deferred classification and so send them to the army. It is hypocrisy for Congress to say that jobs will be 'saved' for conscripted workers.

"For a declining private capitalism it is the last chance for dealing with unemployment, not by producing abundance for all but by putting men into non-productive military service."

General Smedley D. Butler has declared the United States armed forces the biggest collection agency in the world.

Added to this political mis-management, and the economic power controlled by an ever-increasing few bringing pressure to bear on the masses, the schools admit the failure of their methods by favoring a system of military training. Added to this also, is the general unemployment situation—no country has ever maintained Democracy in conjunction with prolonged, large-scale unemployment.

Obviously we do not need a large army in peace time, and as yet no one has attacked us, nor hinted that they might. Quite as obviously, although many people look upon the governing heads of Germany, Russia, Italy and Japan as gangsters, they are not of the opinion that our soldiers should attempt to crush these leaders. We have not protested with armed force when Russia warred upon its own people, nor when Japan subjugated Manchuria, nor when Italy conquered the Ethiopians.

No, the conscripted army is a political fraud to accomplish other aims, even than crushing the German leader, or the German financial power.

That all of this is known at least in a general way is seen in the fact that the Government dare not submit the Conscription Bill to a national referendum. That they must conscript—force—men into service shows that they can not get an army for such flimsy excuses as given, by enlistment. The Gallup Poll, generally considered a dependable one, has recently revealed that in the whole country only 12% are for declaring war against Germany and 88% of all United States citizens are against it.

General Butler said of the last World War: "I was on the inside of that war and I can testify that between the war declaration on April 6 and the beginning of the Conscription at the end of the month, only 38,000 persons volunteered. The War Department got scared and instituted the universal draft."

Christianity Made A Crime

A genuine Democracy recognizes the right of the individual to follow the dictates of his conscience. To believe that the force of mass or great numbers gives Right is to give the lie to the fact that free-thinking minorities are the basis of all progress in democracies.

A Conference of Friends (Quakers) recently gave its conviction "that the adoption of military conscription is a negation of the right of conscience, a denial of religious freedom, a violation of the fundamental concept of democracy".

To counsel, even by a minister, a young man to follow his conscience and its Divine inspiration is now a felony and punishable by fine and imprisonment! Naturally a government to pass such laws must have been proceeding along the same totalitarian lines beforehand. In our own country the Conscription Bill was preceded by the Roosevelt-packed Supreme Court ruling in the case of Jehovah's Witnesses which drastically limited religious freedom. The Smith Alien & Sedition Law sets as great limits of our civil liberties. Peacetime military conscription brings dictatorship in our country to a new high power and danger.

Let each person set about doing what he can, and collectively it will become a power. Verily, Faith is the greatest force in the world. Let us begin by exposing on every occasion the delusion that there is safety in armaments and

FIREMEN SPEARHEAD FOR CLOSED SHOP

Radio Talk, Wednesday, 7:15 pm, KGB, Jan. 29, 1941

The city council adopted yesterday a resolution declaring that firemen be placed on a work schedule of 72 hours a week instead of 84 hours. The fire chief was authorized to make a new schedule of work hours, consistent with regulation that would not cause any fireman to lose any part of his regular pay. The new schedule will become effective at the beginning of the new fiscal year, July 1, 1941. This resolution was passed after Mr. de Aryan, the editor of THE BROOM, had written a letter to the council asking for the six day week immediately in order to obviate the circulating of petitions to that effect. But the firemen are continuing to circulate petitions. In granting the six day week the council actually raised the wages of the firemen 14 percent. Still the firemen are not satisfied and want another raise of 10 to 15% on top of it. Few people realize that the firemen are a closed shop labor union affiliated with the American Federation of Labor. The drive is on to replace control of city employees by a series of charter amendments so that the labor unions will run the city hall in place of the city council. That is why they want those charter amendments to take the control of the fire department away from the city manager and council, away from the civil service commission and place it under the labor unions. Even the electricians employed by the city sent a foreign labor agent to ask for a raise instead of sending a city employee from their own ranks. Here is what the Labor Leader, official AFL organ, says on the front page: "Labor is lining up strongly behind the fire fighters in their efforts to better their conditions and establish a minimum wage. A contract committee is appearing before all locals, requesting and receiving assurances of vigorous support. It is emphasized that organized labor has another grand opportunity to manifest its strength."

Since firemen receive wages ranging from \$148 for beginners to \$185 for first class firemen, while laborers who work full time receive only \$87 for beginners to \$109 top wages, it is plain that the fight is on for the control of the city hall and a show of strength of labor unions.

large armies. Let us expose the fallacy that this war will save the world -- an idea as futile as that of the last World War that it would save democracy and end all wars. Let us distinguish between opposition to the Conscription Bill, and a campaign for its repeal and work wholeheartedly and diligently for the latter. Let us recognize the Truth that safety and sanity exist only in the acceptance of the essential solidarity of the whole human race.

And let us remember the words of Col. Chas. A. Lindberg that prevention is better than cure: "Our policy should be to prevent these European wars if we can, and otherwise to stand aside while the nations of Europe find their own destiny. We must stand aside if for no other reason than that one strong western nation be left to preserve the flame of civilization."

National Emergency & Some Suggested Remedies

Editor, The Broom.

On page six of your last week's issue of the Broom, I read with much interest the article by Mr. John Burnham of Rancho Santa Fe, head lined, "National Emergency and Some Suggested Remedies". It appealed to me in particular as it coincided very much with my silent trend of thought these history making, whirl-wind days, when the governmental powers that seem to be fairly upset our usual footing.

It also interested me as Mr. Burnham is a heavy taxpayer in our county, a loyal enterprising supporter and resident of Rancho Santa Fe and no doubt his thoughts are much disturbed of late, as to the eventual outcome of our present operation of self government, the wasteful staggering cost of same, the increasing Mammoth National debt and all apparently with no thought or consideration for the future or posterity.

I am sure there are many readers of the Broom who feel deeply for our Country's economic, social and spiritual welfare and are quite of the same thought as Mr. Burnham. We will be interested in his further "elaboration" of this momentous subject through the courtesy of the Broom.

ROLLIN PEIRCE.

4. Make Military alliances with any nations anywhere in the world.
5. Take us into war whenever, wherever and against whomever he chooses.
6. Give away our Navy to any nation.
7. Give away every gun and bullet in our Army to any nation.
8. Give away all our military secrets to any nation.
9. Give away every American airplane to any nations.
10. Open our harbors and all their facilities to the warships of any nation engaged in war.
11. Seize the ships of one country and give them to another country.

HERE IS WHAT YOU MUST DO NOW TO SAVE
OUR REPUBLIC

ACT
NOW

Telegraph, telephone or write your two Senators; also your Congressman; also Senator Walter F. George, chairman of the Senate Foreign Relations Committee.

Tell them you are opposed to the war dictatorship bill, that you want them to fight and vote against it, that you won't stand for compromises, that the whole bill must be killed and thrown out of the Capitol.

Make a list of all your friends and relatives and get them to do the same. Do it immediately !

ple by advancing the prices of all commodities, aided and abetted by a press too willing to publicize "Our rapidly growing population". No one ever tells the truth about taxpayers money spent to advertise San Diego, attracting those from other States

who immediately apply for board and room, hospitalization and clothing on arrival, at the same taxpayers expense. ADVANCED PRICES OF NECESSITIES EVENTUALLY ENDS ITS VICIOUS CYCLE IN ADVANCED TAXATION.

Sincerely yours,
ISABELLA FLEMING.

1776, Then and Now

My dear Mr. de Aryan:

Thank you kindly for sending me the several copies of your January 6th edition containing my poem, SPIRIT OF 1776, and the other editions also. At first I could not understand the duplicate copies until I found the poem inside. May its publication help to open the eyes of some of the slumbering nincompoops.

I got a real thrill from your article about "Cholly Knickerbocker" and his rats. At last some of these writers who write for their bread and butter are coming out from their sh..sh..sh.. and saying what they really think, for they begin to realize that is about their last chance to say anything at all. This "Cholly" a few years back ran a series of twelve articles in a Chicago paper under the caption of "THE JEW IN PALESTINE". He had held interviews over there with both the Arabs and the Jews, and he assayed to give an "unbiased" report of them, though you could see all through it he was favoring the Kikes. However, some very amusing information did leak out through these articles, which I gathered up and bound in book form, and I could get them from Chicago for you if you should wish.

One of the very amusing things in those articles I well remember was an account of how the Arabs sold to the Jews 1000 acres of worthless or stony land for \$40 per acre—went out and spent the entire \$40,000 for ammunition, and when the refuJews came to take possession of their newly purchased "homeland" they were mowed down by the Arabs ammunition. The Arabs, it seemed, made a profitable deal, by letting the Kikes finance just one war. If Americans had only half their intelligence! But we are regarded as the dumbest of all the White Race.

I got another kick about your washing the broom to make it sweep cleaner. You're doing a mighty good job. Keep it up. I only wish I could give your paper some support which it deserves. However, I myself am a bit weary from having alone and single-handed undertaken some ten years back to MOP UP AT WASHINGTON. At that time, the only one I could get to help me was Padre Coughlin. It was I who laid the plan of his N.U.S.J. to undertake to organize the voters of decency and set up a press that would tell the truth. The success of my plan was so phenomenal that it went to the priest's head and it burst. In other words, as the Scriptures teach, "He that exalteth himself shall be humbled". So Padre fell in the scrub bucket, and I have since been mopping alone.

Sincerely,
LOIS de LAFAYETTE WASHBURN.

Jack Hamilton's "Stabilization Fund"

GOOD TIMBER FOR NEW DEAL PRESIDENT

I received an anonymous letter accompanied by a news item clipping concerning Jack Hamilton, 25, financial secretary at San Diego High School, accused of the theft of fees entrusted to his care:

Dear Mr. de Aryan:

Isn't this an interesting news item?

The City Supt. of Schools as well as all members of the City Board of Education knew of this theft of \$2,000 (State School law says City Board of Education responsible for supervision of Student Body Funds) in August, 1940, yet they kept quiet and also kept Secretary on job on payroll of schools up until Dec., 1940 when the Grand Jury started an investigation. Now City Board of Education is trying to get Hamilton off so as to keep down publicity.

Superintendent of Schools knew the lax method of accounts at S. D. H. S., even Co. audit 4 years ago pointed out but Board and Superintendent failed to act You know how to investigate . . .

There is no question about the lax method of accounting. Hamilton stole money by writing checks for "change" on the fund entrusted to him to use it in making change for the sale of tickets. I suggested to the Superintendent that the students should check up their own funds once a month. They know when tickets are sold and when admission is free. Hamilton used to cash checks for "change" at events where admission was free and pocketed the change, until he had stolen over \$2,400 dollars.

When a teacher reported irregularities in August, 1940, the Superintendent was very wise in not taking action against Hamilton before he had fool proof evidence to convict. Once that was produced, he was suspended.

Hamilton used the money to help some people buy a house and a car. He was a regular New Deal Secretary helping the underprivileged with other people's money, filched from them while they did not suspect it. The only trouble is he did not make it two billions and did not call it a stabilization fund.

KMTR (570 Kilocycles) 1 pm Daily and Sunday—Listen to G. Allison Phelps, The Program of American Life.

Men of dissolute lives have little incentive to look forward to the hopes and glories of immortality. A due conception of these would be incompatible with such a life.—Henry Ward Beecher.

Still seems it strange, that thou shouldst live forever?

It is less strange, that thou shouldst live at all? This is a miracle, and that no more. —Young.

then and there to show cause, if any they may have, why said application for change of name should not be granted.

It is further ordered, that a Copy of this order to show Cause be Published in The Broom, a Newspaper of general circulation, published in the City of San Diego, County of San Diego, State of California, for four successive weeks next preceding the date set for the hearing thereof.

Dated January 23, 1941.

Songs of More Than Sixty Years, Both Grave and Gay, Feature the Telephone

Here are some of the 430 songs about the telephone which have been collected by C. A. Swoyer, Columbus, O., telephone man. The "Telephone March," center, was published in 1877, one year after Bell invented the telephone, and is believed to be the first music composed on this subject. At the sides are some of the telephone songs which have proved popular in the decades since.

POWER TO DO EVIL

Editor, The Broom:

I listened to the inauguration ceremonies, even to the details as to how many times the President raised his hat.

The ceremonies opened with an invocation by a preacher who prayed God that he would clothe the President with humility—a much needed prayer. However, this was unanswered as witness the President's "veni vidi vici" address.

The second reverend invocator prayed for peace with fervent mention of the Prince of Peace.

This was strangely answered by a parade of tanks, guns, other instruments of war and fighting men armed cap a pie ready for human slaughter. (A 50-piece Boston band was barred from the parade because it was not associated with a military association.) Following the administration of the oath of office to which the President did not assent with a simple "I do" but for emphasis repeated the words of the oath to support the Constitution of the United States I heard some static on my radio—or was it the snickering of the gods?

A fitting finale to this dramatic exhibition would have been some appropriate changes in the habiliments of the Statue of Liberty: replace the torch with an upheld Garand rifle, place helmet on head, strap on a Sam Brown belt, fill the pedestal with canon, tanks, bombers, etc.

Renew the statute "America enlightening the world on how to be a great arsenal." "War hath its blessings even more renowned than Peace." etc.

By comparison how lonely and possibly impotent seems that noble group of Americans, Wheeler, Johnson, LaFollette, Nye et al whom the non-hysterical and thoughtful citizens of the United States so highly and hopefully admire.

I would rather be lonesome with them than revel with power.

Sincerely yours, JAMES H. JOHNSON,
1968 Second Ave., San Diego, California.

Uniform Bumper Location on Cars

Dear Mr. de Aryan:

This will acknowledge your telegram suggesting an amendment to provide that all car bumpers be of uniform height from the ground. I believe the idea is a good one. I shall introduce such a bill or turn the matter over to some member of the Motor Vehicles' Committee who will act on it. I have never been a member of that committee.

Sincerely, PAUL A. RICHIE.

THE BETTER MAN OF THE LOT

Ernest J. Boud Appointed Councilman

When the city council appointed Ernest J. Boud, 4313 Ridgeway drive, a retired businessman, to represent East San Diego in the place vacated by Herbert E. Fish, it selected a good man for the job. Boud immediately took out nomination papers to run for the same post in the spring election.

In opposition to Boud "Sir Harry" Warburton, who was defeated in the race for assembly, has become a candidate and Andrew Weir, who was defeated four years ago by Fish. Both these also-rans will be given another drubbing at the coming election. Boud is not British in mind and demeanor like "Sir Harry", but a level headed American, something which cannot be said for the crackpot Weir.

Last entrant into the council race from East San Diego is William (Bill) White of Rogers Funeral Chapel. Frank Flanagan also filed.

OPEN UP 7th AVENUE TO UNIVERSITY

The Honorable, The City Council,
San Diego, California.
Mr. Walter Cooper, City Manager, San Diego. Gentlemen:

To lessen traffic congestion at the bottleneck of Sixth and University avenue, it will presently be necessary to open up Seventh avenue to University.

Since any change in road alignment in the Park must be preceded by a vote of the people, it will be advisable to submit at the coming general election a proposition to open up Seventh avenue south to connect with the existing Park road in Balboa Park to make a parallel traffic artery to Sixth avenue and lessen congestion.

Yours truly, C. LEON de ARYAN.

Medics Murdered Metaxas

Removal of Tonsils Finished Off Dictator

ATHENS.—Gen. John Metaxas, 70, premier and dictator of Greece for nearly five years, died of a throat infection, bequeathing his hope of victory over Italy to a government swiftly reorganized and dedicated to that purpose. The strong man, ill only three weeks, regained consciousness just before he died.

Metaxas' illness first appeared Jan. 7. On Jan. 19 he grew worse after removal of his tonsils and he remained in bed until death.

The chief physician of the British Mediterranean fleet flew to Athens from Crete to assist Greek doctors and a German specialist was en route from Vienna when the dictator died.

Whatsoever that be within us that feels, thinks, desires and animates, is something celestial, divine, and, consequently imperishable.—Aristotle.

Russia Winning War

OMAHA, Nebr.—Christian Englishmen are not blind to "queerness" of present war, and altho even members of Parliament who voiced thir opinions are in prison, yet as recently as 11-26-40 (same date Prime Minister's son Randolph Churchill made his maiden warmongering speech in Parliament), Mr. Rhys Davies, who spoke before Churchill, said: "The highest kind of patriotism is that a man should exert all his influence against the plunging of his country into war". As THE PATRIOT (London) 12-5-40 reports: "... The most astonishing thing of all that has happened recently is this: His Majesty's Govt. have recognized what they call in diplomatic language the *de facto* annexation of the Baltic States. No wonder people are bewildered. We are fighting Germany for taking Sudetenland and other patches of Central Europe, and we are trying our best to make friends with Russia for doing exactly the same thing. Quite frankly, I cannot understand the mentality that treats the capture of territory as annexation and another, exactly the same process, as an aggression.' More and more people are coming to see the hypocritical nature of our dealings with Soviet Russia. ... Jewish control everywhere fools people same way!—Chas. B. Hudson.

S. F. IRISH GROUP OPPOSES BRITISH AID

SAN FRANCISCO.—The United Irish societies, which said it represented 50,000 San Franciscans of Irish descent, opposed increased aid to Britain and questioned the sincerity of "England's war aims while she maintains (the) northern government under (the) pretext of protecting (a) minority."

A cablegram, setting forth the societies's views was sent to Wendell Willkie in London.

WAR MONGERS

"I tried to get out (of the committee) after the election because I felt that this war mongering activity made this a full time job for a younger man."

"I certainly do not agree with any one who wants to make a climate in which the war bug will grow. In two of our Chapters, New York and Washington, we have a bunch of war mongers and under our organization we have no way to oust them, and I just can't remain at the head of an organization which is being used by those two Chapters to ghost dance for war."—William Allen White.

Owes No Allegiance to Britain

Irishman Refuses to Aid Foreign King

NEW YORK.—Thomas J. Kelly, 30, born in Belfast and naturalized five years ago, refused to serve in the army under the selective service act and told Federal Judge Edward A. Conger he had "no alternative as long as this country gives aid to Britain."

During questioning, he said that the judge who presided at his naturalization had neglected to tell him that someday he might be required to "aid Britain."

The court held Kelly, a grocery driver and elevator operator, in \$500 bail on a charge of violation of the selective service act.

JEW IN KEY-POSITION

NEW YORK.—The New York Times says it understands that President Roosevelt has offered to Mayor Fiorello H. La Guardia the post of executive assistant to the president in charge of coordination of national defense efforts.

"If Mayor La Guardia should take the job, it will mean, it was said in Washington, that he would be the link between the president and all defense efforts," the newspaper said.

Concentration Camps Looming

Trouble for Deal Foes

WASHINGTON.—President Roosevelt's rough retort to Senator Burton K. Wheeler's rather vicious criticism of the administration's foreign policy was far more important and significant than generally is realized. It means trouble for the political and economic enemies of the administration.

For eight years—or at least for six of them—Roosevelt suffered and winced under criticism from the newspapers, the Republicans, members of his own party and those whom he dubbed economic royalists. Now, as our first third-term president and the intending savior of the democratic way of life, Roosevelt feels that he does not have to take anybody's back talk. He figures that he is sitting on top of the world, and that neither foreign nor domestic attacks are justified. In his opinion, he has as much right to swing on an anti-war senator like Wheeler as he has to sock Benito Mussolini on the chin.

This is not an imaginary conclusion. The president's closest admirers have discerned a tremendous transformation in him since he assumed the role of economic and military generalissimo of the so-called democracies. F. D. R. has become, willy-nilly, a world dictator—and he loves it.—Ray Tucker.

NO DEMOCRACY IN ENGLAND

LONDON.—Another thing about soldiers on leave in this war—almost any place you go you can see a private and a colonel and their two girls eating together.

No, it doesn't mean that the war has brought true social democracy to England. It merely means that conscription makes officers of some aristocrats and privates of other aristocrats, and when they're on leave they are still both aristocrats regardless of their uniforms.—Ernie Pyle.

It is no wonder that a candid, well-informed visitor to our shores, on witnessing the manner in which our home and foreign affairs are being conducted in Washington, stated that the initials U. S. A. no longer stood for United States of America, but for United Suckers of America.—New York Enquirer.

HEALTH-GERMS

By George Starr White, M. D.

Dear Friend de Aryan:

Today I came across the inclosed information regarding the Nome diphtheria scare of 1925. This letter was written by a visitor at Nome at that time. It speaks for itself. That maybe U and your readers could get some use out of it, as such 'scares' still take place frequently! This incident shows how a few persons can ruin a town. Some city in Missouri, I believe, was ruined several years ago by doctors starting a small-pox scare.

I tried to hear U on the radio the other nite; but the "interference" was too great. My instrument could not deliver your message so I could understand it very well, but I got the gist of it. I cald the radio peopl about it. They said the station broadcasting your speech had such low power that other stations drowned it out except within a limited radius.

I am glad U printed the "Mind and Muscl" article and that at least your San Diego followers could hear it on the radio.

With all best wishes for a Happy and Successful New Year,

Youthfully yours, GEO STARR WHITE.

"The Nome Epidemic"

(From a letter dated July 21, 1926)

"Last fall I returned from Southwestern Alaska on the steamer Alameda, which was the last boat out of Bering Sea for the season of 1925. About two-hundred residents of Nome were coming south on the same steamer to spend the winter in the States.

"One day some one chanced to mention the "Epidemic", and it was then that I first learned of the real nature of the affair.

"To begin with, the entire winter population of Nome does not exceed seven-hundred persons. Things get rather dull up there after the freezeup; and to quote my informant, "Two of Nome's most prominent citizens decided to put Nome back on the map". No one on the boat seemed to be quite sure just what the nature of the original case was. At any rate, whether it was sore throat, tonsillitis, or something else, the two self-appointed publicity agents sent a press dispatch to the States saying that diphtheria had broken out in the city.

"Evidently sensational news was scarce at the time. The Press wired their own correspondent for further details. When advised by him that there really was nothing to report, they dismissed him and took all further advices from the original source.

"Anti-toxin was sent for, and dog-team relays were arranged to rush the anti-toxin to Nome. Twenty miles, I believe, was the distance to be covered by each team. The hero who went without sleep, and endured such terrible privation (in the Press dispatches), ran past the team which was to have covered the final stretch, without waking the driver. He is not a hero at Nome—or a near-hero either.

"According to the story told by the self-appointed spokesman of the Nomites aboard the boat, there were only two serious cases involved in the whole affair. These occurred when one woman and a small child had serious reactions after being treated with the anti-toxin. The death-rate in Nome for the winter was below normal, but owing to the tendency to believe everything that is seen in print under the signature of the accredited press agencies, all insurance companies cancelled policies previously written on citizens or residents of Nome. Their reason being that their policies did not apply in "Pest-ridden communities".

"Tourist-travel to Nome dropped to practically nothing the following summer. The gentlemen who were to have "Put Nome back on the map", are no longer living there. The mere mention of them, or of the hero dog-teamster, brings a curse from those who are still paying for the poor publicity stunt.

"I have tried to state a few of the facts as told to me, deleting only a little profanity now and then."

Aid-to-Britain—plow under every fourth American boy.

Did God Order Rape & Murder ?

Note: The Winston Simplified Dictionary as well as Abbott's, give the following definitions of AGNOSTIC—"relating to those who deny all knowledge of God, or to their teachings; expressing ignorance".

In the debate with Frank C. Hughes, a self-confessed agnostic and atheist, it becomes evident that after confessing his ignorance of the subject of God, Hughes continues to air his ignorance, even wrote a whole book about it. It is remarkable how people will continue arguing about a subject they admit they know nothing about. Their claim is that because they are partially atrophied in spiritual perception all others must be, too. The teachings about the nature of God are as plain and simple to a normal intelligence as the teachings of other self-evident truth in various departments of science. After first admitting their ignorance of the subject, agnostics arrogate OMNISCIENCE to themselves when they claim that they know it all, namely: that it is not true that God is the central focus of Intelligence whence it radiates into the universe. How do they know, if they are ignorant?! Agnostics are in the same fix as Communists. A Communist demands "constitutional rights" to destroy our constitutional rights. Wherever there are large numbers of agnostics in a nation it drifts into Communism, because people who do not know what they are here for and how to live and act, create chaos and will have to be taken in hand by a man with an iron fist who will tell them and make them like it, too. Agnosticism is another religious superstition, opposed to truth.

GOD IS LIFE

My dear Hughes:

You are a great shadow boxer and setter-up of strawmen. Now let's get down to real stuff and see what you can trot out. So far you have failed to prove a single one of your assertions about God doing this and God doing that. All you were able to show was that some fellow said so and so. I am not interested for the sake of this debate what the other fellow said. My debate is with you, not the other fellow. What do you say? Can you prove it? You have not proved yet that Joshua stopped the sun in its apparent orbit or were you there Sharlie? You have not proved that God ordered the rape of women and the murder of males. Why do you make such foolish statements which you cannot prove? Were you there when the alleged God made those alleged statements? Once you assume false statements as the basis of your position you are false to your own intelligence and that is the trouble with all of you ignor-amuses, alias agnostics.

The Mother of Jesus

Our debate started when I took exception to your lascivious mention of Jesus' conception. There are some limits to a white man's patience.

If you will read the New Testament correctly and carefully you will not find any perversion of the natural fact of a virgin becoming a mother in the natural way. The narrative establishes a number of facts clearly and in discreet language points to the father of Jesus for discerning people to see without smearing the parents. It states plainly that the young woman was a virgin, betrothed to Joseph, had known no man previous to the appearance of Gabr-Eli, the man of God, the messenger who was bringing her the great good news that her first born was to be a Savior, the expected Redeemer. The fact is established that Joseph is not the father of the first born. That leaves Gabr-Eli who brought to her the gift of motherhood. Any discreet, intelligent reader cannot help but admire the manner in which this delicate subject was handled by the writers of the Gospels to present the facts plainly for those who have brains and shield the mother against just such minds like yours who would drag this narrative into the gutter of lasciviousness.

To give the young child the proper physical and psychological background, naturally, the parents had to be strong enough to challenge conventionality and assert the laws which produce progeny that is not subject to contemporaneous slavery to distorted rules.

Is There ONE God ?

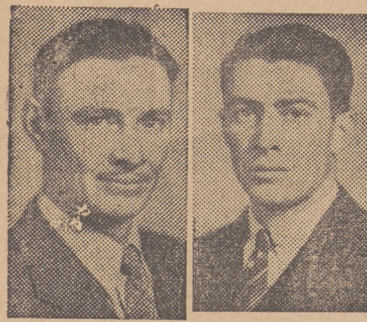

In the matter of God, no sensible individual enters into a discussion of this subject without first defining it. You jumped all over creation like the ignoramus, self-confessed, you are, in fact ridiculed your own ignorance.

When I use the term God I am not interested in what the Bible or any other book says. God is not contained in the Bible. No book could imprison and monopolize God. If Life Eternal were in the Scriptures while are the Scribes a bunch of hypocrites and cheats?

God is the source of Life Eternal. Now if you wish to deny eternity as well as life, naturally there is nothing to debate.

God is the source of Intelligence. If you wish to deny intelligence, of course I heartily will

The "Persoal" Responsibility Of The War Issue

Clark Cornell, 30 ; Boyd Cornell, 24

Maybe it would be a fine thing if the United States of America could always be "collectively" right, and forward moving. If it could be so, no one individual, no one editor, no one preacher would have to even concern himself about the right and the wrong of any given issue, for there would not even be an issue. We say, "maybe it would be a fine thing" if there were no occasion for "individual" responsibility either for right or for wrong. In that case no individual would either be awarded or be punished. In that case, as Sam Walter Foss put it, (paraphrasing):

"There would be a dead hum of voices, all saying the same thing And our forefathers' songs are the songs we'd all sing, And the deeds by our fathers and grandfathers done Would all be done by the son of the son of the son."

If that were really the God-provided scheme of things, there would be no disagreement, no controversy, no conscription acts on the part of the public officials and no disobedience to such acts on the part of individuals. We would all be sheep-minded. There would be no occasion for personal or individual opinion or will or either the mental ability to express it, or the need to stand

for it, in the face either of popular disapproval or of officially decreed punishment.

We say the above would all be true if there were no feeling of personal responsibility. But it so happens that, as per the Divine Plan, there is the thing we call personal responsibility. In all generations and among all peoples, the thing we call personality has manifested itself. The Creator implanted in the nature of man that which makes him feel a deep-seated satisfaction when he walks in the light of his own understanding; and, on the other hand, he feels deep-seated self disapproval when he permits forces that are outside of himself to either bribe or intimidate him into doing that of which his own understanding disapproves. In all this rests the key to all human progress.

In pointing to this, we are not pointing to something that is contrary to the nature of man and therefore, miraculous. Instead, the person who walks in the light of his own understanding is no less selfish than the one who, whether thru bribery or thru intimidation or thru unguardedly accepting what seems to be the plausible suggestions of designing persons and groups does that of which his own best judgment has condemned. The difference in the behavior of these two persons is not that the first is less selfish than the second. The first is "enlightenedly" selfish and the second one is sordidly or "stupidly" selfish.

It must be 18 or 20 years ago that the Cornell family listened to a man who was called, "Burns of the Mountains" give a lyceum address which consisted of a review of his personal experience in changing from a hill-billy Kentucky-Tennessee born and bred mountain feudist to a dissolver of feuds and the president of a feudist battles in those mountains

mountain college. On one occasion this man, supposedly dead, from a gun-shot wound, had been thrown over a rail fence by his enemy feudists. But if dead, he had come to life again, and thru careful nursing was brought back to normal health. But the day came when he said, "never again" and he had the character to expose himself to what, to common hill-billy understanding was certain hair-trigger death in carrying out a plan for a "negotiated" peace between those two warring factions of stern purposed mountaineers. That Caldwell Methodist church lyceum audience sat at the most breathless attention of any audience of which we have ever been a part, while that former feudist related the incidents of what was probably the most dramatic, death-inviting "negotiated" peace incident of which America's history can boast.

Of the many Boise Valley citizens who, upon that visit to the Boise Valley of that wonderful product of those timber covered mountains, surely there were few but who remember that simple story of "Burns of the Mountains" with anything but feelings of the most devout reverence for the way that enlightened personal responsibility enhanced the dignity of the man who faced what promised to be certain disaster in following the light of his own understanding.

Burns did that peace-moving act not because he had been 'schoolied' to do it, or 'churched' to do it, but because the light of a new understanding had come into his life, and being a young man of courage of heart he did not shirk doing what to those who lacked that understanding, and what in all of the traditions of those mountains, seemed to be certain personal disaster for himself. From that day to this, ordinary neighborliness has replaced

CONTRASTING EFFECT

Dainty mimosas like dancing angels on wing
Huddle close together and faintly sing . . .
They lean on the concrete-walled citadel
That stands partly destroyed by waring hell.
—Olivia M. Diaz.

After the sleep of death we are to gather up our forces again with the incalculable results of this life, a crown of shame or glory upon our heads, and begin again on a new level of progress.—Hugh R. Haweis.

(Continued from page One)

"Who is the foreign aggressor that is compelling the distraught people of this land to pay unconscionable taxes, not alone to their own government but for the lavish expenditures of alien governments as well, and making this great and proud Republic the slave of foreign lands and the laughing stock of the universe?"

"Who is the foreign aggressor that is depriving America of her weapons of defense and distributing them among foreign belligerents who have cynically and soullessly betrayed her in the past and will betray her again if given the opportunity?"

"Under the specious pretext of saving democracy abroad, our domestic aggressors are strangling democracy at home."

"If Congress had been true to its duty to God and country, our present afflictions would never have come upon us. Congress has proved false as Judas to the people whose servant it is. Yet it is through Congress, that the people must save themselves and the Republic from the raging crater into which they are being lowered."

"It was the true American, Grover Cleveland, who declared: **'Public Officers are the Servants and Agents of the People to execute laws which the people have made and within the limits of a Constitution which they have established.'**

"The great majority of our public officers do not bear allegiance to this fundamental principle of American statecraft. They act as party interest and self-interest dictate."

"Less than five years ago—on August 14, 1936, the President of the United States spoke prophetically, admonishingly and safely when he said: **'If war should break out again in another continent, let us not blink the fact we would find in this country thousands of Americans who, seeking immediate riches—'FOOLS' GOLD—would attempt TO BREAK DOWN OR EVADE OUR NEUTRALITY.'**

"This forecast has been borne out with tragic accuracy and tragic consequences to the Republic, actual and prospective. Since it was made, our neutrality has deteriorated to such an extent as to be a make-believe that continuously insults American intelligence."

"In the mad march to war and irreparable downfall wherein we are being dragged, American capital, void of conscience and of patriotism, and lured by the charm of fools' gold of blood profits, is advancing to its doom."

"Until we marched into Europe in battle array, in 1917, under the generalship of a President elected because he said that he kept and pledged that he would continue to keep us out of war, American neutrality had been our sure shield against foreign embroilments, from the founding of the Republic. . . ."

"The recurrence of the quarrels and blood-letting of the Old World, has taken place with marvelous precision from time immemorial. On May 30, 1824, John Quincy Adams, Secretary of State under President Monroe, wrote in his diary: **'I told him I should not subscribe for the Greeks, nor advise the President to subscribe. We had objects of distress to relieve at home more than sufficient to absorb all my capacities of contribution; and a subscription for the Greeks would, in my view of things, be a breach of neutrality, and therefore improper.'**

"This was written in the period when our Secretaries of State knew how to serve America, and did serve America, in the genuine American

Send This Letter to Your Congressman

Dear Sir:

Take a good look at endeared scenes in the days just ahead—you are seeing them for the last time as features of the Republic of the United States. The cycle of our history that began in Washington's time completes its eclipse. The snake has his tail in his mouth, or however the symbolists represent these matters—anyhow, the orbit of our republican era is ended. The twilight finale of a great nation, rotten, rotten, rotten to the core.

Historians of the future will marvel most of all, I suppose, at the non-resistance of those who had most to lose. Not a civil war was needed for the seizure—not a shot was fired. The peasants of Russia offered considerably more opposition, even when they had less to lose. The greatest prize in all the annals of mankind—The United States—handed over on request, with most of the poor goofs actually congratulating themselves that they have a taker!

Sincerely,

way. What would John Quincy Adams say today if he were to appear in Washington & see how thoroughly our neutrality is being disregarded and not only with regard to Greece but also with regard to many other countries?

"One of the statesmen, a Senator from the Southland, who raised blisters on his palms, so zealous was he applauding during the first session at Washington of the (third term congress) on January 6, has proclaimed that Uncle Sam must reform the world if it takes his shirt."

"Neither the gentleman in question, nor any of his fellow applauders, have, however, offered to strip themselves of their own shirts for the sake of the more-than-magnificent crusade of world redemption. Not one of them has offered to serve for half-pay, or no pay at all. But they are willing and eager to sacrifice the lives of millions of American boys and bring about such a situation that shirts will be a luxury of the past in the United States of America."

"To this unholy end they are deliberately injecting into the minds of the American people the poison of fear—fear of attack and destruction from abroad. . . ."

"The words of Abraham Lincoln are as proper and inspiring now as the day the Great Martyr uttered them: **'All the armies of Europe, Asia and Africa combined, with all the treasure of the earth, our own excepted, in their military chest, with Napoleon Bonaparte for a Commander, could not by force take a drink from the Ohio or make a track on the Blue Ridge in a trial of a thousand years.'**

"In the glorious era, before proposed legislation began to come to Congress with an Executive Department **'must'** stamped upon it, President Zachary Taylor declared in a message to our National Legislature: **'The Executive has authority to recommend (not to dictate) measures to Congress.'** That was in 1849. Look at what is happening in 1941."

"It is the duty of the people to compel Congress to cease its servility and disloyalty and perform with steadfastness and aptitude the functions for which George Washington (the man who could have been, but declined to be, a Fuehrer) and those who, with him, brought it into being as the National Legislature of the American people."

WAKE UP! The British Are Here!!

They Want Us to Fight Their Wars Again

If You Do NOT Want Our Country Again
Dragged Into a War, Then WRITE Your
Congressman, Senators, and the President,
and TELL THEM SO! DO IT NOW!

TROUBLE AHEAD

We needn't be too sure there won't be war
of one kind or another.

We have so many foes within our gates,
War mongers, sympathizers.

Just see how France was undermined at last
By cruel enemies within.

Our own conditions are so much the same,
So much high living mixed with sin.

All over now employees will insist
On shorter hours, bigger pay.

And so we keep on growing soft and weak.
There'll be a reckoning some day.

The women want their jobs instead of babies.
So unnatural they have grown.

The country's moving toward a huge disaster,
And the fault is all our own.

—Emelda Deshaies.

I feel that I was made to complete things. To accomplish only a mass of beginnings and attempts would be to make a total failure of life. Perfection is the heritage with which my Creator has endowed me, and since this short life does not give completeness, I must have immortal life in which to find it.—Bishop R. S. Foster.

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

Political democracy 'freed' chattel slaves; but as wage slaves, they, and 100 million others in the U. S. A. are still in chains. So democracy has its job to finish.

Seeing an Astor (descendant of John Jacob) giving his finger prints at the draft counter, reminds me of 'eternal verities' that I thought were extinct.

Some of the other boys say with a tinge of irony: 'We go to fight for our boarding houses!' But he can say, 'I go to fight for MY COUNTRY'. The irony gives out; it's the boys who don't have any of it, who have to do the dying for Astor and the other one or two in 100, who have a major interest in 'the country'—its basic monopolies—who OWN the earth!

The Communist-Marxist game is to organize the 'united front' of every possible innocent, innocuous, outside group that can be fooled into joining this deceptive front.

That's what makes the Dies and all other committees such jokes; because the Browners, Thomases, Hillmans, Brouns, and Waldmans, are entirely cold as to labels, parties, and names, which is all a committee has the intelligence to look for.

Why should they get themselves deported, jailed or jeered at with 'red' names, when they can so easily have working for them all the New Dealers, to the tops, the Progressives, the professors, and all the highbrows of trained seals—yes, including G. O. P. Presidential candidates.

The wonderful performing seals that we the people support in 'administrative' offices—local, state and national—in professorial chairs, in high-schools, colleges and universities, in editorial and columnist sanctums, etc., etc, are now mostly engaged in making themselves think, and trying to make us think, that out of the magic sack—or the hat—are coming 'a new order', 'a new kind of democracy', 'an improved, non-profit capitalism', 'a modified socialism'.

Every conceivable compromise of principle and sense is being ridden in, where it can be put in the service of these brilliant and shallow minds, which are under ten times the pay they could otherwise earn, even if their 'activity' were not dangerous and destructive.

WE PAY THE EXACT SUM

The judgment is approaching,
I hear their voices sound.
The scale will show our measure
Woe who is wanting found.

The day of retribution
May hesitate for long,
But false is the conclusion
That once it could go wrong.

With absolute exactness
It strikes when time has come
And to avoid is hopeless
WE PAY THE EXACT SUM.

—Otto Schkoelziger.
